## Walk Through Metal Detector

Model No. S3-305P

S3-305P

### Portable walk through metal detector

Portable walk through metal detector as one portable and high performance metal detector can be movable, waterproof and portable. It can be taken to any where by one person and can be installed in five minutes to work. This model can be used in gym, conference hall, school. And it be operated easily no need more training.

This model obtained surface patent and software system registration property. This model detect metals by electromagnet and alarmed by sound and light if metals overload. It contains CPU, generator, signal receiver, infrared ray sensor. Beautiful surface, strong detecting, more detecting zones, internet remote control management system and waterproof. It can be disassembly parts for better taken and transferred. It's leader of portable walk through metal detector in the market.

### Advanced technology

- Multi-detecting zones technology: 8,16,24 detecting zones, it can be shifted and selected intelligent(more zones update technology can be supported) .
- Working frequency: Super range working frequency(0-120),and working environment adaptive function
- Sensitivity of detecting zone: Sensitivity of single detecting zone can reach 355 grade(adjustable).
- Mobile connect technology: Can be controlled by mobile APP.
- Super housing protection technology: IP67 excellent protection(selectivity)
- Self-adaption diagnosis system: When turn on, system will detect adaptively hardware working status.

Portable design

Black 

Sliver gray 

camouflage 

three colors selected available  
Color and pattern can be customized

### Product Advantages

- Adjustment system: System can adjust detecting standard
- Start and stop technology: Red infrared device own automatic start and stop technology. It can adds 100 times lifespan.
- Sensitivity of each zone can be adjusted(own adjustment technology)
- Detecting zones quantity can be selected by yourself
- Sound and light alarm. Alarm tones and time can be arbitrarily adjusted.
- Enquiry function: System provided actual time information enquiry function
- Detecting capacity: Can detect more than one hundred persons in one minute

Equip 7 inch high definition LCD screen(touch screen) portable and more intelligent

### Technical parameters:

- Detecting target: Contraband goods, more magnet metals;
- Vertical outside size: 2250x850x500mm;
- Tunnel Size: 2051x710x500mm (Width customized range 700~1500mm) ;
- Fold size: 889x606x484mm;
- Working humidity: 99%, no condensing;
- Power supply method: Equip polymer batteries, last time can be 8、16、24、48、72hours and can be selected in optional;
- Input: AC 110V~240V/50HZ~60HZ
- Weight: N.W 42KG, G.W 50KG;
- Package size: 948x666x525mm;
- Working temperature: -40℃~85℃;
- Output: DC 12V/5A 12W

### Function select(optional)

In order to satisfy customers' requirements, this model kept more humanity function for customer's select. Like: measure body temperature system, visual conversational system, passenger detecting video system, face recognition system and etc. More function can be developed according to requirements.

^^.Measure body temperature system

^^.Visual conversational system

^^.Passenger detecting video system

^^. Face recognition system

## Unique feature

- High and low temperature resistance  
Working normally from -40°C to 85°C  
(selectivity)

- waterproof: IP67  
New deep sea waterproof technology.  
Working normally underwater at 0.72m

- Wireless connection(optional)  
Products can be connected through wifi,4G data,  
Bluetooth module into internet, remote controlled  
and data monitored by mobile APP and computer.

- Super long time power supply(optional)  
Equip polymer batteries, backup power supply  
time can be 8、16、24、48、72hours for your choice.  
System automatic alarm to inform you the low  
battery.

## Package specification

Fold size: 889x606x484mm

Volume: 0.33m<sup>3</sup>

Package size: 948x666x525mm

N.W: 42KG

G.W: 50KG

## Technical Parameters

Operating temperature: -40°C to +85°C

Relative Humidity: 99%, non-condensing

IP Grade: IP67

External Dimension: 2250\*850\*500mm

Passage Dimension: 2051\*710\*500mm

Fold Dimension: 889\*606\*484mm

Packing Dimension: 1000\*700\*540mm

Net Weight: 33kg

Gross weight: 40kg
